

## TEST INSTRUCTIONS

**Make sure you read everything before you start your work. Scroll down for more.**

You are required to create a list of cast and crew of an on-going TV series, “The Flash”. The list will consist of the photo of the cast, his/her name, and the biography. You are provided with screenshot samples of the list.

On the directory, which should have been opened for you, there are:

- jquery file
- underscorejs file
- the cast json file
- the cast photos

You are encouraged to use all of them to generate the list.

There are 3 different levels that you can choose; easy, medium, and hard. You will be graded based on the level you choose and your coding style.

You must work under the directory “~/Sites” which should have been opened for you. It is where this file is. Create a file called “index.html” and create your work there. To see the result of your work, open up a browser and navigate to “http://veeva.local/”.

HINT: You can use underscorejs for templating.

### **1. Easy**

The list will be a set of photo, name, and the biography displayed together.
